SUBJECT: Treasurer's Management Report for September 30, 2005

Attached please find the Treasurer's Management Report for the County of Orange for the month and quarter ended September 30, 2005. The information provided herein, including all charts, tables, graphs and numerical representations, is provided to readers solely as a general overview of the economic and market conditions which the Treasurer utilizes in making investment decisions. In addition, a complete version of this report is also available for download at our website [www.ocgov.com/treas/](http://www.ocgov.com/treas/).

### TREASURER'S REPORT

In order to assist you in reading this report, please note that the current balances reflect the investments recorded in the portfolios for each particular fund for the period ending September 30. Each money market fund has an average maturity of less than ninety days, with a net asset value (NAV) falling within the range of \$0.9950 and \$1.0050. The extended fund will have an average maturity of up to 549 days and a fluctuating NAV. All investments are marked to the market at the end of the reporting period due to the narrow valuation range prescribed by the Pools' Investment Policy Statement.

The reports reflect the par value (face value), the book value (cost to the County of the investment) and market value (the price of each security at the close of the market on the last trading day of the month). Market values are derived from the Bloomberg Professional Service, a premier provider of instant access to real-time and historical financial data. The difference between the market value and book value is the unrealized gain or (loss). The Detail Transaction Report Section is provided in compliance with California Government Code Section 53607, which requires that the Treasurer file such a report with the Board of Supervisors, from whom his investment authority has been delegated.

## **APPORTIONMENT OF COMMINGLED POOL INTEREST EARNINGS**

We have prepared a forecast for the timing of the County Pool's August and September 2005 interest apportionments. We anticipate posting the August and September 2005 interest apportionments to participants' cash accounts in the County general ledger by approximately October 24 and November 15, 2005 respectively.

## **CREDIT WATCH NEGATIVE AND APPROVED ELIGIBILITY LIST**

In the month of September, there was one change to the Treasurer's approved eligibility list:

- 1) **ANZ Delaware, Inc.** was added

Please see the attached report detailing the reasons the above action was taken by the Treasurer.

## **ECONOMIC OBSERVATIONS**

The devastation to the southeast by hurricanes Katrina and Rita was extensive. The Bureau of Labor Statistics has estimated the current job losses at 285,000 and it will be many months before industry is back up and running at pre-hurricane levels. It is highly likely some businesses and displaced workers will not return. However, every indication is that the rebuilding effort is underway and the federal government has pledged an unprecedented amount of funding to assist in the rebuilding effort.

Last month's Economic Observations pointed to slow but steady growth in the economy. Most of the data in September supported a continuation of this view. However, there were a few areas of concern. Interest rates have started to back up and it appears that the once white hot housing market has begun to cool. Both of these are very important to the consumer. The effect of low interest rates on consumption has provided the consumer with the ability to finance higher levels of debt. Ever rising housing values have allowed US households to pull nearly \$600 billion out of their homes last year. The resulting additional spending may have added ½ to 1% to Gross Domestic Product (GDP). With rates rising this effect will lessen.

Consumers aren't the only ones beginning to worry. The Institute for Supply Management survey continues to list the major concern among manufactures as the price of oil. Two additional concerns that are a direct effect of the hurricanes are their ability to receive materials and ship product. The port of New Orleans has opened but is operating at much reduced levels. This will force product to be shipped from other ports, resulting in increased travel times and greater costs.

So far it appears the economy has held up remarkably well, but it is too early to draw any definitive conclusions. Upcoming third quarter, and possibly fourth quarter, GDP levels may be lower, with the expectation that the full effect of the hurricanes may not be

**ORANGE COUNTY TREASURER-TAX COLLECTOR**  
**CASH AVAILABILITY PROJECTION**  
**FOR THE SIX MONTHS ENDING March 31, 2006**

Government Code Section 53646 (b) (3), effective on January 1, 1996, requires the Treasurer-Tax Collector to include a statement in the investment report, denoting the ability of the Orange County Investment Pool (OCIP) and the Orange County Educational Investment Pool (OCEIP) to meet their expenditure requirements for the next six months.

The OCIP and OCEIP consist of funds in the treasury deposited by various entities required to do so by statute, as well as those entities voluntarily depositing monies in accordance with Government Code Section 53684.

The Treasurer-Tax Collector is required to disburse monies placed in the treasury as directed by the Auditor-Controller and the Department of Education, except for the making of legal investments, to the extent funds are transferred to one or more clearing funds in accordance with Government Code Section 29808.

The Treasurer-Tax Collector, in his projection of cash availability to disburse funds as directed by the Auditor-Controller and the Department of Education, is relying exclusively on historical activity involving deposits and disbursements and future cash flow projections. No representation is made as to an individual depositor's ability to meet their anticipated expenditures with anticipated revenues.

The Cash Availability Projection for the six months ending March 31, 2006, indicates the ability of the pools to meet projected cash flow requirements. However, there will usually be differences between projected and actual results because events and circumstances frequently do not occur as expected and those differences may be material.

Independent Accountants' Report  
On Applying Agreed-Upon Procedures For Portfolio Compliance Monitoring of  
The County Treasury For Quarter Ended June 30, 2005

John M. W. Moorlach, C.P.A., CFP®  
Treasurer-Tax Collector:

We have performed the procedures enumerated below, which were agreed to by the Treasurer for the purpose of assisting in determining whether the County funds managed by the Orange County Treasurer's office, the Money Market Funds and the Extended Fund, are in compliance as of that date with certain provisions of the Treasurer's Investment Policy Statement (IPS). This agreed-upon procedures engagement was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of Treasury management. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our examination was conducted in accordance with a series of agreed-upon procedures which required that we review, on a test basis, evidence of the portfolio holdings, perform certain mathematical calculations, and review the results with respect to the Treasurer's IPS. In conducting our review, we examined the portfolio holdings on the following dates: April 14, May 10, June 9, and June 30, 2005.

The agreed-upon procedures and the associated findings are as follows:

1. We will verify the completeness and accuracy of the portfolio downloads obtained from the Treasurer's office.

Finding: We noted no exceptions as a result of the procedure.

2. We will perform calculations to determine that the portfolio concentrations of the Money Market and Extended Funds have met the diversification limits for investment types and allowable issuer percentages in accordance with Sections V.2 and VI of the Treasurer's IPS.

Finding: We noted no exceptions as a result of the procedure.

3. We will perform calculations to determine that a Net Asset Value (NAV) of approximately \$1 (within a range of .995 - 1.005) was maintained for the Money Market Funds in accordance with Section II.4 of the Treasurer's IPS.

Finding: We noted no exceptions as a result of the procedure.

4. We will perform calculations to determine that a Weighted Average Maturity (WAM) of less than 90 days was maintained for the Money Market Funds and a WAM of less than 18 months was maintained for the Extended Fund in accordance with Section VI.1 of the Treasurer's IPS.

Finding: We noted no exceptions as a result of this procedure.

5. We will select a representative sample of investment purchases made during the quarter from each fund and will independently confirm that the investments conform with authorized investment requirements in accordance with Sections IV, V.3, V.7 through V.9, VI.2 and XI of the Treasurer's IPS.

Finding: We noted no exceptions as a result of this procedure.

We were not engaged to and did not perform an examination, the objective of which would be the expression of an opinion on the specified elements, accounts, or items. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Treasury management and Treasury Oversight Committee and is not intended to be and should not be used by anyone other than these specified parties.
