How to Read a Book
by Kwame Alexander

Grown-up Tip!

Preschool is the time for children learn how to care for books. They can learn how to hold a book and how to turn the pages one at a time as a story progresses. Show your child the various parts of the book (front, back, cover, spine). Show them where to start reading and how to follow the words in making sentences. As you and your child read together guide your finger beneath the words to demonstrate.
