

If you're ready for total genealogy immersion, then the Southern California Genealogical Society's 49th annual **Genealogy Jamboree** is for you.

From Thursday, May 31 through Saturday, June 2 at the Los Angeles Marriott Burbank Airport Hotel, you will be able to explore workshops, roundtables, lectures and an exhibit hall displaying the latest products available to assist genealogists in searching for family—everything from “Preparing for a Research Trip at Home or Abroad” to “Cause of Death: Dissecting Coroner’s Records for Genealogical Research” to “5 Steps to Identify a Family Photograph”.

On Thursday, the focus will be DNA and genetic genealogy, where you can learn the difference between autosomal DNA, mtDNA and Y-DNA and which tool is useful for what type of investigation.

Many of our past OC Public Libraries Genealogy Series speakers will be featured, including Lisa Louise Cooke (who is also our **2018 Genealogy Orange** presenter), as well as Denise May Levenick, Jean Wilcox Hibben, and Thomas MacEntee.
